

Medical and dental treatment disputes

Document preparation checklist

Av. Murat Adar · İstanbul Barosu 21499 | 15 October 2026

1. Treatment plan, offer and consent documents
2. Complete medical records and dated images
3. Invoices and payment evidence
4. Independent findings, corrective estimates and provider replies

Separate the provider, intermediary and promised treatment

A clinic, surgeon, dentist, agency and package organiser can have different roles. Keep the treatment offer, booking messages, consent forms and invoices together so the contracting party and promised service can be identified. Record what happened without treating an unsatisfactory appearance alone as proof of negligence.

Following the matter after returning home

Initial review can use a complete digital file, with originals retained for later requirements. Agree who will obtain Turkish records, arrange translations, assess medical evidence and follow the relevant proceedings. An assessment should distinguish completed treatment costs, corrective treatment and other claimed losses rather than offer a standard compensation figure.
